1. Explain briefly and clearly the proposed improvement.

We are proposing to revise the Marketing minor by deleting MKTG 4700, Business Marketing Statetgy, as an elective course and adding MKTG 4730, Direct Marketing Strategy, as an elective course.

2. Rationale. Give your reason(s) for the proposed improvement. (If your proposal includes prerequisites, justify those, too.)

The enrollment restriction for MKTG 4700 has been changed, effective Fall 2007, to Sales and Business Marketing majors and (due to a prior service agreement) Imaging/Printing Marketing majors only. MKTG 4730 has been recently revised and retitled, effective Fall 2007, and the content of the course is considered relevant for Marketing minors.

3. Effect on other colleges, departments or programs. If consultation with others is required, attach evidence of consultation and support. If objections have been raised, document the resolution. Demonstrate that the program you propose is not a duplication of an existing one.

None

4. Effect on your department's programs. Show how the proposed change fits with other departmental offerings.

This should have very little effect, since very few Marketing minors presently elect to take MKTG 4700 due to the FIN 3200 prerequisite and MKTG 4730 is one of 14 different elective courses that minors can choose among. .

5. Effects on enrolled students: Are program conflicts avoided? Will your proposal make it easier or harder for students to meet graduation requirements? Can students complete the program in a reasonable time? Show that you have considered scheduling needs and demands on students' time. If a required course will be offered during summer only, provide a rationale.

It will not affect the progress of Marketing minors, as they will have 14 different elective courses to choose among.

6. Student or external market demand. What is your anticipated student audience? What evidence of student or market demand or need exists? What is the estimated enrollment? What other factors make your proposal beneficial to students?

The Department typically serves about 50-60 Marketing minors each year.

7. Effects on resources. Explain how your proposal would affect department and University resources, including faculty, equipment, space, technology, and library holdings. Tell how you will staff additions to the program. If more advising will be needed, how will you provide for it? How often will course(s) be offered? What will be the initial one-time costs and the ongoing base-funding costs for the proposed program? (Attach additional pages, as necessary.)

No effect.

8. General education criteria. For a general education course, indicate how this course will meet the criteria for the area or proficiency. (See the General Education Policy for descriptions of each area and proficiency and of their criteria. Attach additional pages as necessary. Attach a syllabus if (a) proposing a new course, (b) requesting certification for baccalaureate-level writing, or (c) requesting reapproval of an existing course.)
